“When our carrier stopped insuring animal-related entities, AnimalKeepers stepped in to fill the void. They were easy to work with, provided us with quick, reasonable quotes, and generally made the entire transition seamless. I highly recommend them to any other animal welfare nonprofits looking to find coverage.”

Michelson Found Animals (CA)**

“I've led the South Suburban Humane Society for twelve years and finding affordable, quality insurance from a company that understood our unique challenges has always been one of the worst parts of the job. Until AnimalKeepers. AnimalKeepers is easy to work with, responsive, and by far the most cost-effective option on the market for us. Insurance is a frequent topic of conversation amongst animal welfare colleagues and I'm always recommending it as the best solution!”

**Emily Klehm, CAWA, CEO
South Suburban Humane Society (IL)**

“AnimalKeepers truly understands our industry and helps to find answers to our questions. The transition to AnimalKeepers was seamless. They seem to know the answer to questions before we ask them. A true joy to work with.”

**Andrew Viglietti, Executive Director
Humane Society of Sheboygan County (WI)**
