

# RISK MANAGEMENT

## DEDICATED SAFETY SPECIALIST

We take a consultative approach to risk management. Our Risk Management Safety Specialist connects with your client to understand their operation and existing safety practices. Our safety specialist will then provide personalized recommendations and work with your client to reduce exposures and minimize losses.

## E-LEARNING

Access to comprehensive training is critical to the safety of employees and guests. Our online training and tracking management system provides 24/7 access to a wide range of courses, at no additional cost to our clients.

Our management tools allow you to create customized training programs, track user activity and easily maintain detailed records. We also offer a document dropbox for uploading your own policies and training materials. Our team will help set up E-Learning for your organization and provide technical support to both trainers and trainees.
