BY  **McNeil&Co.**

McNeil & Co. has become the leader in specialized risk management and insurance for one reason: we live and breathe our clients' businesses – with a suite of policies that are never off-the-shelf, with service that's always a step ahead and with training and risk management programs designed to prevent loss before it occurs.

That's why we've been in the business for over 25 years and why our clients see us as consultants, experts and partners for the long haul. Our specialized programs include AdvenSure, AnimalKeepers, ASIP, BISA, ESIP (and Benefits), FireWatch, HOMed, WildPRO and the Bar, Tavern, Club Program.

SPECIALIZED SERVICES AND ADDED VALUE FOR TODAY'S PRIVATE AMBULANCE BUSINESS

RISK MANAGEMENT SERVICES

ASIP, by McNeil & Co., provides more than best-in-class insurance coverage for the private ambulance sector. We have developed a lasting model by extending comprehensive risk management services to help ambulance companies operate more safely and avoid catastrophic losses, earning us unparalleled customer loyalty.

ASIP has consistently led in specialized insurance for the ambulance industry, developing a deeper understanding of our clients' challenges and opportunities than any other provider. As other programs and carriers have come and gone, we've maintained a stable offering and turned our expertise into education and training programs – both online and onsite – that add value to our policies.

ASIP offers the attention and expertise you can only expect from people who live and breathe your business, with a dedicated risk management team and an in-house claims staff that will work diligently on our clients' behalf. We take pride in policies that address the exact needs of each customer, and we work hard to provide the stable market our clients have come to expect.

RISK MANAGEMENT SURVEY & RECOMMENDATION REPORTS

We pride ourselves on building strong partnerships with our clients, and the first step in that process is getting to know them. Our Risk Management Consultation Survey sets your business up to meet with a qualified Field Representative to review important aspects of your existing safety and risk management practices.

Our trained Safety Specialists review the information gathered during your meeting and – based on their industry experience and insurance knowledge – create a personalized report with recommendations for increasing safety and minimizing loss in your organization.

E-LEARNING

Access to comprehensive training is critical to the safety of emergency service providers. Our internet-based training and tracking management system provides 24/7 access to a wide range of courses, at no additional cost to our clients.

Our management tools allow you to create customized training programs, track user activity and easily maintain detailed records. We also offer a document dropbox for uploading your own policies and training materials. Our team will help set up E-Learning for your organization and provide technical support to both trainers and trainees.

ADDITIONAL RESOURCES

- Safety & Training Specialists
- On-Site Training Options
- Safety Materials & Posters
- Sample Policies & Development Guidelines
- Risk Management Plan Development
- Employment Practice Liability Hotline
- Wheelchair Van Safety Tools

VIDEO EVENT RECORDERS

Video event recorders offer excellent support for your fleet management program. With the ability to use recordings as a preventative training tool, receive feedback from any driver incident or help enforce company policies, recorders are a great resource to improve driver safety. We can provide several options and support for purchasing, installing and managing video event recorders for your auto fleet.
