

CANNABIS SAFETY GROUP UPDATE

In partnership with New York State Insurance Fund, Cannabis Association of New York (CANY) and McNeil & Co. have been diligently growing the CANY Cannabis workers' compensation Safety Group since established in mid-2022.

As the first and only cannabis industry safety group, McNeil is thrilled to share we now have dozens of cannabis cultivators, processors, and dispensaries in the program. The goal is to create a safety group of best-in-class cannabis operators.

Combining the power of the NYSIF safety group with CANY's mission of a restorative, sustainable, and inclusive New York cannabis economy is unmatched. McNeil & Co. is proud to partner with both organizations to manage and grow the cannabis safety group.

Cannabis Association of New York Safety Group 591 is underwritten by the New York State Insurance Fund (NYSIF) and managed by McNeil & Co.

PROGRAM BENEFITS

- Policy discounts for qualified cannabis operations
- Segment specific risk management and loss control services
- Accident analysis and trending reports
- Claim reserve reviews and large loss analysis
- Experience mod factor review, forecasting and class code verification

Enjoy an average up-front discount of 23% and average dividend of 27% — average savings of 50% on workers' compensation premiums.
